ZQ60_000002_000 Advanced Product Find

This service pack makes the following enhancement:

Advanced Product Find [GX16570]

This extends the existing product find function to include long descriptions and information about aliases in Print Translation Tables and Product Translation Tables in EDI.

Post Application Text

This service pack should be applied with service packs:

ZM60_000029_000, ZI60_000004_000, ZS60_000019_000, ZO60_000012_000,

ZD60_000028_000.

ZQ60_000003_000 \$AUTH32 authorisation control

This service pack forms part of a set which introduces a new and powerful tool for authorisation control to Global 3000.

\$AUTH32 authorisation control [16647]

The user authorisation vetting system provided by \$AUTH32 allows you to set up a table of authorised users with associated passwords and authorisation codes, who are allowed access (or restricted access) to Global System Manager and applications containing Authorisation Point restrictions.

See Enhancement Note ZM60_000037.doc for details

ZQ60_000008_000 Tax Rates

Tax Rates [gx18044]

This service pack changes the way in which tax rates are handled throughout the Global 3000 applications. It introduces a start date and expiry date for each rate percentage per tax code.

Please see the note accompanying this service pack for full details.

Please note, prior to these changes each tax code held a single percentage rate, after applying this service pack the system will automatically translate these to a single tax rate valid for all dates.

ZQ60_000009_000 Greyed out Menu lines

Greyed out Menu lines [D18787]

In some cases application menu lines may be greyed out.

Please note, the menu files have been updated to clear the problem.

Please copy ED-Menus & WW-Menus from your program unit (\$P) to your data unit (PAD) after applying this Service Pack. This step is not required if service pack ZM60_000080_000 has been applied and unit 'G3M' has been assigned to your program unit (\$P).

ZQ60_000010_000 Multiple Bin Handling

Multiple Bin Handling [gx10667]

Please note, the features described in the following text (and accompanying service pack note) are not yet available, they are currently undergoing testing and quality control and will be enabled in a later service pack.

This service pack introduces the ability to operate multiple bins per stock location.

Please note, the following features are only available at sites configured to use the extension database (see service pack ZM60_000259_000 for details).

The distribution options within system parameters have been updated to include a new option labelled Multiple Bin Handling . This will provide configuration options for controlling the use of multiple bins throughout the distribution modules.

Stock transactions (issues, receipts, returns, adjustments and transfers) have been updated to take in to account bin numbers for all stocked products (not just those that are batch tracked).

A new button labelled Zones has been added to location maintenance. Zones are used to sub-divide stock locations. For example in to aisles. Stocktakes can be limited to products held within bins situated at specific zones of a stock location.

A new option labelled Bin Maintenance has been added to the system maintenance menu within Stock Control. This allows bins to be created, updated and their contents to be manipulated.

A new option labelled Bin Enquiries has been added to the product enquiry menu. This allows enquiries upon bins, their contents and bin movements.

A new option labelled Bin Reporting has been added to the Reporting menu (within Stock Control). Note, this report is only available in PDF format.

All places within Stock Control, SOP, POP and Manufacturer that issue, receive, adjust or transfer stock have been updated to update quantities recorded within bins where applicable.

Please see the accompanying service pack note for further details.

Please note, printing documents in PDF format requires an up-to-date copy of either PDF_In-The-Box or All_In_The_Box to be present on each GX client used to perform the document generation.

Please copy ST-Menus from your program unit (\$P) to your data unit (STD) after applying this Service Pack. This step is not required if service pack ZM60_000080_000 has been applied and unit 'G3M' has been assigned to your program unit (\$P).

ZQ 60 8

This GSP is part of the following Group

ZQ60_000012_000 Update for Data Protection (GDPR).

Data Protection (GDPR) [gx19515]

NOTE: When used as intended these changes provide options that alongside procedures managed outside of Global 3000 allow a business using Global 3000 to comply with the General Data Protection Regulation (GDPR). The existence of these changes do NOT imply that a business using Global 3000 is GDPR compliant.

This service pack introduces new system parameters to enable data protection controls and allow the location of the data retention policy and privacy notice documents to be specified, these can then be viewed whilst creating/amending Customer or Supplier contact details.

A new Data Protection window now appears immediately after a Customer or Supplier contact record is created or updated. This allows users to record and update the privacy and data retention options for the contact.

A new Data Protection Maintenance option has been added to system parameters (within the administration options). This allows users to manage the data protection preferences for contacts (either individually or in bulk). When data protection controls are initially enabled, the system will prepare the data by assuming that none of the existing contacts have opted in to data retention, receiving marketing material, sharing information with third parties or being aware of the privacy statement. The new Data Protection Maintenance function can then be used to update the contacts in bulk to reflect their correct status.

Note, the new data protection controls require a new phase to be added when a Debtors Ledger or Creditors Ledger period is closed. This will inevitably cause close period to take extra time to complete.

Please see the accompanying note for further details.
