This GSP has the following Pre-requisites -

This GSP is part of the following Group

ZT60_000002_000 \$AUTH32 authorisation control

This service pack forms part of a set which introduces a new and powerful tool for authorisation control to Global 3000.

\$AUTH32 authorisation control [16647]

The user authorisation vetting system provided by \$AUTH32 allows you to set up a table of authorised users with associated passwords and authorisation codes, who are allowed access (or restricted access) to Global System Manager and applications containing Authorisation Point restrictions.

See Enhancement Note ZM60_000037.doc for details
