

ZV61_000001_000 Enhancement to Stock/Distribution Cost Postings.

Stock Control and Distribution Cost Postings [gx19932]

The changes affect Stock Control, Sales Order Processing, Purchase Order Processing, Landed Costs and Manufacturer. They update the way that cost postings are processed so that they are posted directly into the General Ledger rather than via an interface file produced by the Process Costs function.

Note, the process costs function remains active and, on the menu, to handle the posting of existing files and for legacy recovery handling.

Post Application Text

After application of this enhancement pack 'Process Costs' and General Ledger 'Auto-Transfer' should be used to fully process any remaining sales and operating costs.
